WHO WE ARE ?

Our story begins in 1976, under the name BONNOT SA, as importer of an anticorrosion range for the French automotive market. In 1984, the company took a gamble that would determine its future growth, by taking an interest in a technology unknown to the French market: windshield repair, and became a forerunner on the French market.

Manufacturing our own tools and molds, we regularly renew all our compliance tests in line with technological developments in glazing, thus ensuring our commitment to a long-term, sustainable approach.

In 1999, Cédric VIOLA joined the family business alongside his father Alberto VIOLA. Together, they developed the business in France and abroad, and in 2002, the company changed its name to VB.S.A. In 2017, Cédric VIOLA took over from his father and became VB.S.A.'s current Chairman.

Customer satisfaction as our guiding principle

Guided by the desire to fully satisfy our customers and increase their productivity, we have always strived to do just that. After windshield repair, we came up with other solutions to enable our customers to broaden their range of services.

We set ourselves apart with our products and our customer support. We are committed to quality, customer satisfaction and training. Our ISO 9001 certification, obtained in 2005 and renewed every year, rewards our hard work.

WHY MADE IN FRANCE ?

At VB.S.A., we are proud to manufacture some of our products directly on our headquarter in Cornimont, in the Vosges. This proximity to production enables us to guarantee optimize quality for all our solutions. In addition to manufacturing, we also offer an on-site after-sales repair service for our products, ensuring that your needs are taken care of quickly and efficiently.

To facilitate the work of our employees and optimize our production, we recently introduced a modern, high-performance work line. This innovation not only simplifies the daily tasks of our teams, but also improves the consistency and quality of the products we manufacture.

Producing locally gives us total control over every stage of manufacturing, guaranteeing reliable, long-lasting products for our customers. When you choose VB.S.A., you benefit from our commitment to excellence and customer satisfaction, ensured by rigorous, high-quality manufacturing and repair processes.

WHAT DOES OUR **CORPORATE SOCIAL RESPONSIBILITY (CSR)** CERTIFICATION MEAN ? ?

For VBSA, obtaining EcoVadis certification is much more than a simple distinction. It is a testament to our deep and ongoing commitment to sustainable and ethical practices. It means that we constantly strive to reduce our environmental impact, ensure safe and fair working conditions, maintain irreproachable business conduct and select our partners according to strict sustainability criteria.

Environment: We are committed to minimizing our ecological footprint through waste management initiatives, carbon emissions reduction and responsible use of natural resources.

Labor practices and human rights: We provide our employees with optimal working conditions that respect their well-being and fundamental rights. Diversity and inclusion are also at the heart of our corporate culture.

Ethics: We conduct our business with integrity, transparency and fairness, adopting fair trade practices and actively fighting corruption.

Responsible purchasing: Our relationships with suppliers are based on rigorous sustainability criteria, ensuring that our partners share our values and commitment to society and the environment.

EcoVadis certification is therefore an external validation of our efforts and values. At VBSA, we are determined to continue on this path and constantly improve our practices for a better future.

OUR **2ND CHOICE** APPROACH? ?

As part of our eco-responsible approach, we now offer "second choice" items to our customers. These products, which may present slight aesthetic defects, remain fully functional and in line with our quality standards. Rather than disposing of them, we have chosen to give them a second life.

- **Reducing waste:** By selling these products, we avoid wasting precious resources and contribute to reducing our environmental impact.
- **Accessibility:** Our customers can access quality products at reduced prices, making our solutions even more accessible.
- **Sustainability:** This initiative is part of our drive to promote more responsible and sustainable consumption practices.

The introduction of Second Choice Sales is a further step in our commitment to the principles of EcoVadis certification. It demonstrates our determination to integrate sustainable practices at every level of our business, while meeting our customers' growing expectations in terms of social and environmental responsibility.

At VBSA, we firmly believe that every gesture counts. By giving a second life to our products, we affirm our commitment to a more sustainable future that respects our planet. We invite our customers to participate in this approach by choosing second-choice products and thus contributing to more ethical and responsible consumption.

RÉF. KIT-FENTES-RPB

AUTOMATIC INJECTION WINDSHIELD REPAIR KIT

MADE IN
FRANCE

AUTOMATIC WINDSHIELD REPAIR SYSTEM

The TERMINATOR windscreen repair kit is an injection process with a motor. It is so intuitive that even a person who does not repair windscreens on a daily basis will achieve perfect repairs. The operator takes advantage of this time-saving to perform other tasks, as the machine works on its own.. Select the type of impact and the machine will successively alternate vacuum and pressure according to a precise program. It is also possible to select the type of impact to repair.

Compliant with standards :

- ♦ AFNOR NF X 5021
- ♦ NFR61-980

REF.	DESCRIPTION	QTY
292	Aluminium case	1
APPAREILTERMINATOR	Terminator device	1

WINDOW ENGRAVING / SCRATCH REMOVAL KITS

PNEUMATIC ENGRAVING SANDING BLASTER KIT

Easy way to use. Especially design to engrave with stencyls, by spreading of sands on different materials like stone, glass or plastic materials.

The gun is endowed with a trigger on the handle and a body containing a filter where the abrasiv is located.

The abrasive (sand) is spread thanks to an internal vacuum system and with a 8 mm nozzle.

A rubber tip allows a direct application of the gun on the stencyls, the abrasive is spreaded on the part to engrave, then return inside the gun, to reduce the loss of unneeded sand.

Characteristics :

- ♦ Weight : 600gr
- ♦ Diameter of the body : 145mm
- ♦ Length of the gunt : 250mm
- ♦ Abrasive type : suivant application
- ♦ Air consumption : 300 liter/min. straight use (much lower in discontinued use)
- ♦ Maximum use : 10 bars

PLASTIC HEADLIGHT REPAIR AND RESTORATION

HEADLIGHT REPAIR / RESTORATION KIT

These systems remove scratches and tarnishment from polycarbonate headlight lenses. The process is simple and inexpensive. The first step consists in removing the base coat on the plastic with specific abrasive discs, then in a second step, the plastic is restore by applying 2 polishes (n°1 for clearance and n°2 for brightness). These polishes are approved for use in the aviation industry.

RÉF. KIT-ROP3 Battery version

Tarnished plastic headlight.

Apply manually the 2000 grit disk on the optical headlight then wipe it.
Do the same with the 3000 grain.

Apply the product in one straight layer.

Wait a few minutes for the product to dry between each application.

Repeat this step 4 or 5 times, making sure to put the product on a different area of the microfiber.

Result : the tarnish is gone and the shiny effect is present.

HEADLIGHT RESTORATION KIT

For shiny effect and long-lasting protection of the headlight.

PLASTIC HEADLIGHT REPAIR AND RESTORATION

2 IN 1 HEADLIGHT PLASTIC REPAIR PNEUMATIC MACHINE WITH AIR PRESSURE REGULATOR INTEGRATED

supplied without connection (ref. RACCORD1-4MALE)

Thanks to its reversion system, you can convert from orbital mode (sanding process) to rotative mode (polishing process).

Characteristics :

- ♦ Ultra light 740gr
- ♦ Ergonomic design
- ♦ With rubbered handle for a better handling
- ♦ No wrenches required to remove the pad (manual crewing)
- ♦ Average air consumption: 59L/min
- ♦ Speed 1 : 6000 rpm
- ♦ Speed 2 : 3000 rpm

ADHESIVES / DEFROSTER REPAIR KIT

LOCTITE 3090

2 COMPONENT FAST CURING ADHESIVE

Advantages :

- ♦ fast curing
- ♦ gap fill : up to 5mm
- ♦ precise and clean application with the syringe
- ♦ temperature resistance from de -40°C to +80°C
- ♦ perfect for all quick repairs of broken plastic parts and all types of emergency repair
- ♦ excellent bonding of all common substrates (metals, most plastics, rubber, wood, paper...

RÉf. 3300-BUSE (P31) fits this product.

RÉF. L3090

LOCTITE 480

BLACK FAST CURING ADHESIVE - REINFORCED

Advantages :

- ♦ high tensile and/or shear strength
- ♦ good peel and impact resistance
- ♦ for bonding metal to metal, rubber or magnets
- ♦ good resistance in humid environments
- ♦ curing time : 20-50 seconds
- ♦ application temperature : -40° to +100°C

RÉF. L480

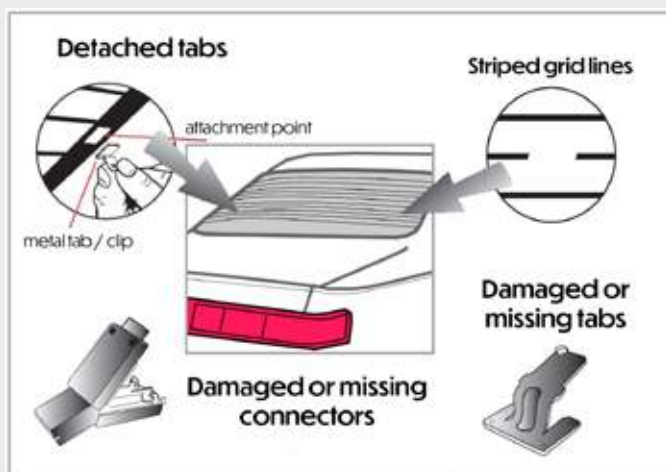

LOCTITE ADHESIVE KIT

for windows and mirrors - 24ml with activating primer - 150ml

RÉF. 3317

DEFROSTER REPAIR KIT

Fixes defrost tabs, broken lines, replaces missing defrost connectors

Possible repairs :

- ♦ grid repair
- ♦ tab repair
- ♦ antenna repair
- ♦ new connectors
- ♦ main power tabs

This kit also includes a test lap and instructions.

SOLAR FILMS (30METERS ROLL)

VBSA offers a wide range of automotive sun protection films with excellent visible light transmission.

Our laminated films protect you from the aggressive UV lights. The exterior visibility remains unaltered. Dazzle is considerably reduced.

CONFORT LINE

WINDSHIELD SETTING/LIFTING

MADE IN
FRANCE

SINGLE OPERATOR WINDSHIELD INSTALLATION SYSTEM

SINGLE SUCTION CUP

Delivered in a aluminium case

The windshield installation tool is intended to provide a safe and fast means for installing windshields in most vehicles. When properly operated retains a secure grip on one side of the windshield allowing windshield installation to be done by a single installer.

ADVANTAGES

- ♦ Left-handed adapted, easy application on passenger or driver side
- ♦ Competitive
- ♦ Supplied with full technical instructions

 RÉF. ULTRAPOSE1

WHITE GREASE
for the sliding rod

RÉF. 252

WINDSHIELD MOTORIZED FITTING/LIFTING

MOTORIZED FITTING/LIFTING SYSTEM SINGLE OPERATOR FOR CARS, SUV AND VANS

DESCRIPTION

- ♦ 2 speed remote control activating the actuator
- ♦ adjustable anchoring height
- ♦ aluminium structure
- ♦ integrated work table
- ♦ compact, light and robust, quick installation
- ♦ lateral sliding of the windshield
- ♦ battery powered
- ♦ US1566851, US Patent and FR1657501, FR Patent

ADVANTAGES

- ♦ back and arms free from heavy loads
- ♦ allows the removal and the installation of windshield, panoramic roof, rear window thanks to its telescopic cylinder and its integrated work table
- ♦ the windshield can rotate up to 360°
- ♦ removable suction cup support to save space on the side

TECHNICAL DATA

- minimum height of non unfolded post : 164cm
- maximum height of unfolded post : 253cm
- fixed arm length : 150cm
- length of the mobile arm with suction cup : 129cm
- width of the rolling base : 44.5cm
- length of the rolling base (including wheels) : 71cm
- maximum load : 50kg

MADE IN
FRANCE

RÉF. ULTRAPOSE-EVOLUTION

optional

For attaching the ultrapose Evolution remote control to the suction cup, for suction cups ref. PSL-150-1 and PSH-120.

RÉF. EVOL-SUPTEL

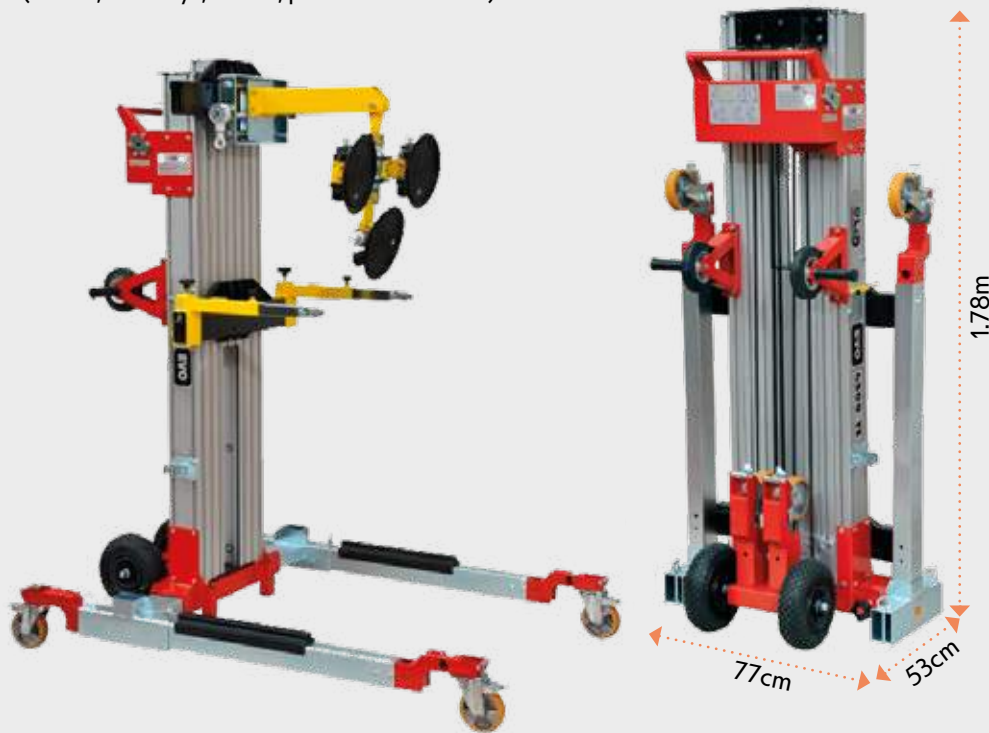

Battery indicator light

Rotating arm: allows the arm to be positioned with the suction cup holder in several places on the vehicle, especially towards the front if there is not enough space on the side.

WINDSHIELD SETTING/LIFTING FOR BUS & TRUCKS

L'ULTRA-POSE[®] Bus

ULTRA-POSE BUS IS ADAPTED FOR THE REMOVAL AND INSTALLATION OF VERY LARGE WINDOWS BY A SINGLE OPERATOR
(trucks, subways, buses, panoramic roofs...)

TECHNICAL DATA

- length : 1.78m
- width : 1.16m
- maximum load :
 - Fork : 280kg
 - 3 suction cups : 210kg
 - 4 suction cups : 260kg
- maximum height unfolded : 3.38m
- folded height : 1.78m
- folded width : 77cm
- folded depth : 53cm
- Unit plate weight : 124kg

ADVANTAGES

- ♦ gearing system can be operated manually or with a screwdriver
- ♦ wheel lock for straight forward and backward movement
- ♦ foldable for easy transport and storage
- ♦ 1 person only to load and unload it from a utility vehicle
- ♦ compact, handy and practical
- ♦ the accessories of the old version are compatible with this model

Truck application

Bus application

WINDSHIELD SETTING/LIFTING FOR BUS & TRUCKS

Options for ultra-pose bus RÉF. TS2016

MOTORIZED KIT
with remote control - 220V

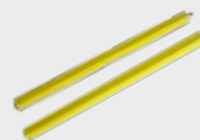

RÉF. TS-KITMOTORISE

OPTIONAL ARM
allows to place the windshield in horizontal side
to facilitate the application of urethane.
Must be used with TS-RALLONGE
RÉF. APB-TS3500

EXTENSION ARM
for panoramic roofs, buses,
trucks and vans.
Easy disassembly with TS-ADAPT
The arm can carry on until 2m high max.
RÉF. TS-RALLONGE

PAIR OF STABILIZER BLOCKERS
for TS-RALLONGE

RÉF. BUT-TS-RALLONGE

SWIVEL ARM
allows to slide horizontally the windshield
to 45° (from right to left) by pivoting.
Features a axis for quick and easy
disassembly. Fits ref. TS-RALLONGE

RÉF. TSA-ADAPT

SWIVEL ADAPTER
allows to slide laterally the
windshield (from right to left) by
moving the whole

RÉF. TSAD-VIS

TS-ADAPT AND TSAD-VIS CANNOT BE USED AT THE SAME TIME

SCAFFOLDING

SCAFFOLDING FOR TRUCK AND BUS

ADVANTAGES

- construction platform with 4 large swivel wheels
- ideal for glazing trucks and buses
- easy and safe positioning
- sufficient space for two people to stand on the 3m wide platform.
- the steps, which are fixed on the 50, 75 and 100 cm levels, can be moved to a higher level. In this case, an additional safety rail is required.
- quick and easy assembly and disassembly of the platform without the use of tools, patented locking system.
- can be installed by one person.

TECHNICAL DATA

Supplied with 3 platforms :

2.90m x .0.63m (3.07m with lugs)

Platform weight : 24kg - Total weight : 121.20kg

- Height of the last platform : 1,19 M
 - Working height up to 3,40 m
 - TUV approved load capacity of 200 kg/sqm (class 3) according to EN1004 norm
 - Wheels : Ø150 mm, rubberized, with brake, height adjustable up to 30cm
 - Stabilising bar included
- Please note that the total length of the platform is 3.07m including the lugs

RÉF. ECHAFAUDAGE

2M50 ALUMINIUM SCAFFOLDING

Caution : the total length of the platform is 2.67m including the legs. Same specifications

RÉF. ECHAFAUDAGE-2M50

ADJUSTABLE ALUMINUM SCAFFOLDING

Foldable, compact and robust

Folding frame weight : 30kg - Telescopic folding frame

Frame thickness : 2 mm - Working height up to 3.40M

Load capacity of 250 kg/per wooden platform

according to EN1004-3 norm (200kg/sqm) - TUV approved

Width of side rails 1.23m (inside)

Possibility to put 2 platforms side by side for a larger working surface.

Stabilising bar included.

Clamped jaw-spacer connections ensure strength

Non-welded connections.

Quick assembly and disassembly with tray hook.

Integrated safety lock in a unique design.

Wheels with brakes (Ø 125 mm), rubber bearings.

Suitable for indoor use.

2.95m platforms available for retrofitting to existing scaffolding (contact us)

Supplied with 3 platforms :

2.95m x .0.60m (3.11m with lugs)

Platform weight : 24kg - Total weight : 110kg

EQUALIZER® EXCALIBUR

EQUALIZER® ESCALIBUR

The Excalibur® is a compact, lightweight, air-powered version of the Equalizer®. Theoretically, it works in the same way as the Equalizer®. However, since it is compact and lightweight, it is even handier, especially in areas that are hard to reach and when you work above the level of the head. The striking rate is 30% higher. In this way, vibrations are reduced.

MAIN CHARACTERISTICS

- cuts the bonding and removes the windows, even those that are difficult to reach
- no damage to the bodywork from the inside thanks to the patented protective sheath and no damage to the mouldings and window frames from the outside
- only 3 blade and sheath size to remove any glass
- adjustable cutting depth
- 4.200 strokes/min no vibrations
- powerful compressed air engine (375W) with self adhesive sound-deadening panels
- can be easily held in one hand with a safety switch on the handle
- heavy-duty tool for coachbuilders and windshield installers

	AEB405	AEB403	DESCRIPTION
 AEB405	1	1	Pneumatic knife - Air consumption : 230 l/min - 375W - 4 200 strokes/min - Connexion R1/4 Maximum operating pressure : 6.0 bar

380x254x51mm - 1.7kg - in a nylon case
RÉF. AEB403

CUTTING LUBRICANT
suitable for all cutting devices, reduces the friction between the blade and the sheath
235ml
RÉF. ECL784

Serrated blades for Excalibur

Steel teeth. Double serrated grinding for a smoother, more efficient cut. Made in the USA.

300MM EQUALIZER® BLADE 300x0.5x11mm - 15g **RÉF. ESB1312**
200MM EQUALIZER® BLADE 200x0.5x11mm - 10g **RÉF. ESB1308**
100MM EQUALIZER® BLADE 100x0.5x11mm - 8g **RÉF. ESB1304**

Standard blades for Excalibur

In unbreakable mild steel. Can be straight up by a plier. Sharpening by grinder, strip sander, file or whetstone. Rockwell hardness so they will not buckle inside the sheath. Made in the USA.

300MM EQUALIZER® BLADE 300x0.5x11mm - 15g **RÉF. EEB797**
200MM EQUALIZER® BLADE 200x0.5x11mm - 10g **RÉF. EEB795**
100MM QUALIZER® BLADE 100x0.5x11mm - 8g **RÉF. EEB793**

Equalizer® sheaths for Excalibur

Formed by a sleeve that surrounds the blade and prevents damage to the dash or garnish mouldings. (100mm for side or rear windows, 200mm for windshield or rear window removal and 300mm in case the windshield goes inside the bonnet and it is necessary to go under the dashboard). Made in the USA.

300MM EQUALIZER® SHEATH 300x3x300mm - 56g **RÉF. EES812**
200MM EQUALIZER® SHEATH 200x3x200mm - 36g **RÉF. EES808**
100MM EQUALIZER® SHEATH 100x3x100mm - 18g **RÉF. EES804**

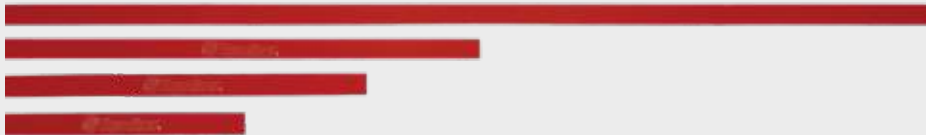

EQUALIZER® NINJA & PROTECTIVE STRIPS

PROTECTIVE STRIPS

Every protector used cannot withstand repeated hits by a power tool blade and would jump out of the pinchweld, leaving the paint exposed to potential harm. Tape works to some extent, but would not hold sufficient downward pressure to keep the pinchweld protector in place.

This kit includes 4 different lengths of a high impact metal that will absorb repeated striking from the blade, and uses a vacuum hold down tool to exert pressure to keep the pinchweld protector in place.

There are many places where this will be useful, but most important are the new vehicles that have no moulding around the glass. Even a small nick on those vehicles is easy to see from outside and can result in the need to have that part of the vehicle repainted.

PINCHWELD PROTECTORS

- 120cm metallic strip **RÉF. MLP-182**
- 60cm metallic strip **RÉF. MTF-183**

LEAK DETECTORS & COLD KNIVES

Ultrasonic leak detector and transmitter

The leak detector makes it easy to find.

The transmitter emits an ultrasonic sound inside the car compartment while the receiver emits an audible sound and an optical signal when the leak is detected.

It is important that the vehicle is dry, as water can seep into the leak and influence the result.

ULTRASONIC LEAK DETECTOR

290x195x80mm - 1140g

RÉF. PWR-2020

Gives a sound and an optical signal of the extent of the leak.
Delivered in a leather case.

Cold knives

ZIPKNIFE™ COLD KNIFE

its unique shape allows a control of the cutting head, ensures freedom of movement, while exerting force in both directions, can be used with our cold cutting blades.

RÉF. ZK35

DEV-ROLL-N-CUT	Wire dispenser	1
848031AIGUILLE	Wire threader	4

It's possible to use several types of piano wire (steel or nylon) with our ROLL-N-CUT kit, but be careful that our reel is not compatible with large spools, CGN-100 or ZLN-914 from our cutting wire range.

 **RÉF. ROLL-N-CUT**

For occasional use

ONE-MAN WIRE CUT-OUT TOOL

acts like another person sitting inside the vehicle pulling the wire back after you have made your cutting stroke. The spring is attached to a vacuum cup that is placed in the center of the windshield inside of the vehicle. An aluminium swivel, riding on a ball bearing, allows the swivel to follow the wire.

185 x 185 x 140 mm -940 g

- 1 one-man system
- 1 braided wire **RÉF. SD-22**
- 1 wire threader **RÉF. AIG-125**
- 1 gripping handle **RÉF. DGL-2015**

SECURE THE ADHESION OF YOUR SUCTION CUPS

AUTOMATIC PISTON

replaces the manual plunger, which automatically sucks in the suction pad when the button is pressed, can be used manually if the battery is discharged.

Power: 3.7v
Charging time: 2h30
4h autonomy

Supplied with USB-C charging cable

Adapts to **ULTRAPOSE1**, **ULTRAPOSE3**, **VP-205**, **VP-230** and **VP-230SPECIALE**

WARNING: not compatible with TS2016 lifter

RÉF. PE24

Manual use

Automatic use

BATTERY POWERED SUCTION CUP

Diameter: 200mm
Flat suction pad, cannot be used on curved glass.

- Classic suction= 160kg
- Maximum vertical suction= 180 kg
- Maximum horizontal suction= 200 kg

Ideal for flat windshields, trucks, bus, etc...

Power: 3.7v
Charging time: 2h30
Discharge time : Long, the suction cup stops et reactivates automatically when necessary

UNIVERSAL MOULDINGS

Ask for our sample keychain, it will allow you to know all our mouldings.

(Supplied with a detailed table showing the correspondences with many examples of vehicles...)

UNIVERSAL MOULDINGS

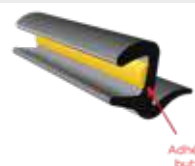

Excellent forming and adhesion. Remain flexible even with low temperatures. Butyl adhesive. No cracking, no weakness, no distortion

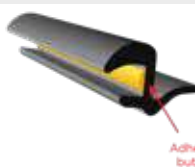

UNIVERSAL FLEXIBLE MOULDINGS

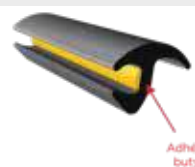

Strong adhesion. Very flexible rubber. Easy to remove liner..

RÉF. KIT-AGRAFES-ECO24

Q-BOND

Q-Bond works on most plastics, hard/rigid like ABS. On wood, PVC, carbon graphite, fiberglass and bakelite. On most metals, especially malleable alloys like aluminum, magnesium, cast iron. On most rubber surfaces.

Repair example door trim

KIT Q-BOND STANDARD

- glue 20g x 2
- grey powder x1 (alu and metal)
- black powder x1 (plastic)

RÉF. Q-BOND-S

KIT Q-BOND PROFESSIONNEL

- glue 20g x 6
- grey powder x1 (alu and metal)
- black powder x2 (plastic)

RÉF. Q-BOND-PRO

Q-Bond is an adhesive for repair and assembly which resists 180° and 90 Bars of pressure

Possibility of repairs :

- seals, belts, rubber straps
- repair of aluminium parts
- reinforcement and replacement of plastic parts - filling of gaps
- gap filling
- bumpers, radiators, grills, fairings, batteries
- automotive tanks, gasoline and gasoline resistant

Parts repair

Headlight tabs repair

for 50ml cartridge

RÉF. 900

RECOVERY FILM

apply the recovering film from outside the repair, and flat the excess of PU for a nice finish and to ease the sanding process
180cm x 10cm

RÉF. 1903

REINFORCING FILM

apply the polyurethane to the fabric and inside the element to be repaired
180cmx10cm

RÉF. 1904

PLASTIC REPAIR SETS WITH STAPLES

Innovating system of weld of all type of plastics by metallic staples of different forms to combine according to the work to realise.
Thanks to the application of heat by means of the soldering iron it allows that the staples unite all type of plastic cracks.
You can repair bumpers, instruments panel, grills, and kind of plastics required.

PLASTIC REPAIR KIT BY STAPLE WELDING 220V

TECHNICAL DATA

- 3 possible positions
- dimensions : 180x80x100mm
- weight : 2.5kg
- power : 12.6
- 1PH phase
- P1 : 40W - max : 8.5A
- U1n : 230V/50Hz

REF.	DESCRIPTION	QTY
-	Plastic case	1
-	Heating system (2 pieces)	1
281AGRAFES	Staple (W) (x100)	1

BODY REPAIR PRODUCTS

STRUCTURAL POLYURETHANE ADHESIVE AND SEALANT IN 310ML CARTRIDGE

elastic, fast curing, can be paint, adheres on sealed and painted sheets, polyester, rigid PVC, concrete, rubber, wood, glass and parts made of stone.
box of 12

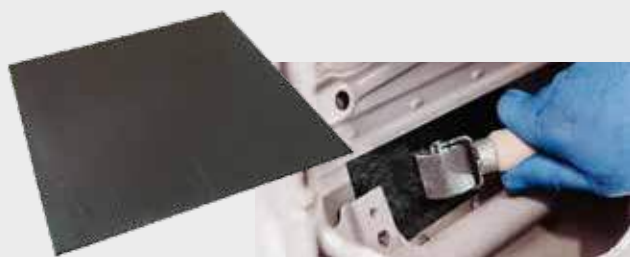

White **RÉF. PUD500BL**
Black **RÉF. PUD500NO**

MULTI-PURPOSE NEOPRENE CONTACT ADHESIVE

easy to use, heat resistant, excellent aging properties, resists to heat, easy to use, used to stick parts in wood, laminated sheets, glazed edges, plastic, leather, textile, cork, parts made of non-rigid foam, PVC, metals, ceramic...

Box of 850g **RÉF. 450**
500ml spray **RÉF. 452**

SELF ADHESIVE SOUND-DEADENING PANELS PLATE 500X500MM

anti-vibration protection of the floors, doors, luggage compartments, bonnets...
malleable and adherent, fits the shape of the support, resists to heat up to 80°C, thickness : ≈2.1mm
box of 10 - pre-cut at 250mm

RÉF. 5555

BRUSHABLE SHEET METAL SEALANT 850GR

reconstitutes and seals the body elements (floors, trunks, shock absorber heads, sheet metal overlaps, engine compartment...), fast drying, does not crack, permanent elasticity, restores the original structures, resists oils and fuels, can be painted after drying.

RÉF. 401

SHEET METAL SPRAYABLE SEALANT 310ML CARTRIDGE

applicable with the gun **RÉF. BODY400**, hardens in the air, reproduces the original finish, allows to make wave effects, joint...
For waterproofing work on bodywork joints, wet on wet possible without adhesion promoter in the following 3h, without isocyanate and silicone.
grey color - box of 12

RÉF. 400

SPRAY GUN + NOZZLES FOR SPRAYABLE SEALANT (REF 400)

adjustable pressure and flow rate, delivered with nozzle kit, weight : 1kg - pressure from 3 to 8 bars
supplied without connection (réf. RACCORD1-4MALE)

RÉF. BODY400

METAL 2K ADHESIVE 178ML
curing time : 20min, bonding and assembling
of the body panel, use with **RÉF.1900** (p 119)

RÉF. 1060-20

SMOOTHER/REMOVER TOOL FOR SILICONE/URETHANE BEADS
uniforms the adhesive joint and ensures the removal of the joint
(silicone, PU)

RÉF. PS-215

CYANOACRYLATE ADHESIVE 20G
short curing time, used to bond :
plastic, rubber, metal, leather, wood, ceramic...

RÉF. 455

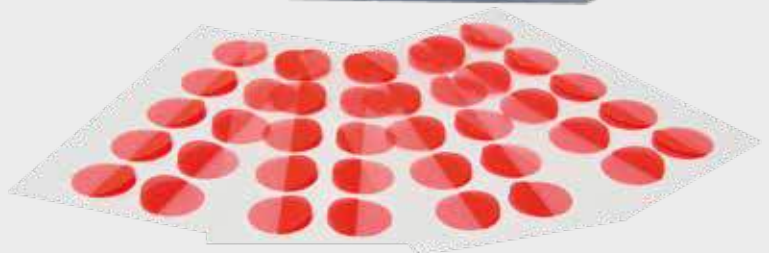

WATER-REPELLENT PLASTIC SEALER 1KG
for the protection and sealing of cables,
hole and crack filling.

RÉF. M-240

PARKING SENSOR PADS **15 STRIPS OF 10 PADS EACH - Ø 18MM**

- easy and quick to apply
- compatible with most parking sensor
- ideal protection during a repair (painting, sanding...)
- easy to remove
- protects the radar seal

RÉF. PSP150

BODY REPAIR PRODUCTS

Putty products and accessories

UNIVERSAL POLYESTER PUTTY 2KG
can be used on any surface,
easy to sand

RÉF. 3702

METAL ALUMINIUM PUTTY 2KG
to fill irregularities on the surface,
non porous, easy to work,
easy to sand with minimum dust.

RÉF. 3722

PLASTIC REPAIR PUTTY 500G
very flexible, to fill irregularities and porosities during
the repair of plastic materials, fast curing,
non porous, easy to sand.

RÉF. 3732

FIBER GLASS PUTTY 0.5KG
to fill deep irregularities and repair perforated
non-loadbearing body parts, very good filling,
excellent grip, permanent elasticity, easy to sand
(490g putty + 10g hardener)

RÉF. 3706

POLYESTER RESIN 1KG
for glass reinforced plastic repair,
non rigid, short curing time,
usable at low temperature

**DUCT TAPE
(REINFORCED FIBER)**
for the protection of sensitive surfaces
(fenders, hood corner or roof during
windshield cutting), can hold a newly
installed window - 55mmx50meters

RÉF. 6200

Emblem transfer adhesives

EMBLEM TRANSFER

Dimensions : 100 x 200 mm - set of 5

When recovering a sensor or an emblem, it is difficult to glue them back
with a double face or adhesive pad (too thick, inconsistent cutting).
The adhesive transfer allows to apply the glue in a thin layer
only to the desired place.

1. Remove protective liner
2. Apply emblem with glue transfer on bodywork
3. Press firmly (repeat the operation)

CAUTION :
minimum application temperature 15°C

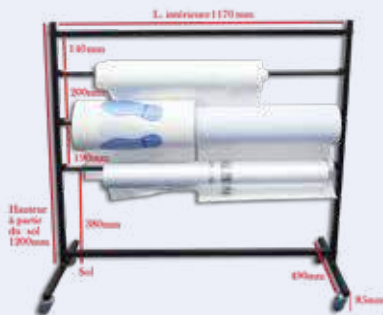

- cheaper and time saving alternative
to the purchase of a new emblem
- permanent adhesion
- all weather conditions resistant
 - car wash resistant
 - -40°C --> +90°C
 - adhesive : acrylic
- shear adhesion : 18.5N / 25mm

PAINTS, LACQUERS & DEGREASERS

BLACK MAT LACQUER SPRAY 400ML - SANDING GUIDE

acrylic paint, short curing time, high hiding power, good grip, restores the original color, can be used as a sanding guide, protects from corrosion.

RÉF. 394

BLACK SATIN LACQUER SPRAY 400ML

short curing time, high hiding power, good grip, restores the original color, can be used in many fields (industry, bodywork, housing...)

RÉF. L400

ANTI-CORROSIVE COPPER SPRAY 400ML

for bodywork, weld and decoration, for spot welding, short curing time, made of 99% pur copper

RÉF. 398

ANTI-CORROSIVE ZINC SPRAY 400ML

long lasting rust protection, grips on any metal, waterproof, made of 95% zinc and 5% synthetic resin, conductor between two sheets for the spot welding.

RÉF. 443

PLASTIC PAINT 400ML SPRAY

short curing time, high hiding power, good grip for the painting and blending on interior and exterior plastic parts, to be used with plastic restorer during a bumper repair.

Black RÉF. 467

Dark grey RÉF. 469

PLASTIC TEXTURIZED 400ML SPRAY

restores the original appearance of plastic parts (bumpers, spoilers, side strips...), can be used before painting, compatible with all plastic paints, does not require a primer if the surface to be painted is cleaned and degreased, complies with manufacturers specifications.

Black RÉF. 1024

Grey RÉF. 1942

DEGREASER BEFORE PAINTING

does not contain any CKW and chlorinated derivatives, ultra fast drying surface cleaner, removes silicones, greases, oils... use before painting vehicles, can be use on metallic surfaces and new parts

Do not use for glazing.

5L cans RÉF. 2105

25L drum RÉF. 2130

WATERPROOF WHITE GREASE 400ML SPRAY

for moving parts subject to high pressure, shock and vibration, excellent adhesion, waterproofs the substrate and has anti-corrosive properties, does not affect rubber, resistant up to + 150°C.

RÉF. 252

MAINTENANCE AND CLEANING PRODUCTS

LUBRICANT 400ML SPRAY

protects metal against rust and corrosion, humidity repellent and lubricate small mechanisms.
Eliminate grease and other marks on most of the surfaces.

RÉF. MS-40-400

PENETRATING LUBRICANT 400ML SPRAY

high penetrating power, removes rust and acts as a lubricant

200L drum [Ref. SC24.942-200](#)

RUST CONVERTER

without solvent containing copolymer latex and organic agents that react when in contact with rust. Actively changes the rust that is on the substrate into an organic complex of stable iron. When curing, it repels oxygen and humidity by forming an anti-corrosive joint. Extremely low toxicity. Does not contain any phosphoric acid or lead. Forms a dry film allowing a good grip for corrosion preventive products. Designed to be applied on rusted ferrous substrates. Can be painted after the cure.

1 liter box [RÉF. RC800](#)
400ml spray [RÉF. RC900](#)

PVC TILES

for industries, garages, warehouses, showrooms, exhibitions rooms, cellars, airports, ships, docks, sport centers, laboratories, public places, platforms, fitness centers...

ADVANTAGES

- quick and easy laying even on the old floor without removing
- immediately ready for use without any pre-treatment
- maximum durability and wear resistance
- excellent resistance to chemicals
- high load capacity : over 60 tons per sqm
- absorbs tools drops reducing the risk of breaking
- anti-slip, anti-static, easy to clean
- allows customization
- insulation against cold, for energy that earns 2°C of temperature for thermal insulation ranging from 0,14 à 0,17 W/m C°

TECHNICAL DATA

- dimensions: 500x500 mm (4 tiles per sqm)
- thickness : 6,7 mm
- weight for 1 tile : 2,2 Kg (8,8 Kg per sqm)
- satin finish aspect
- access ramp : 500x160mm - 0,7kg
- access angles : 160x160mm - 0,2kg

COLORS

left to right :
Beige RAL 1001, Signal Yellow RAL 1023, Safety Yellow RAL1003, Signal Red RAL 3020, Pale Green RAL6021, Pine Green RAL 6028, Sky Blue RAL 5015, Gentian Blue RAL 5010, Azure blue RAL 5009, Graphite Black RAL 9011, Charcoal Grey RAL 7016, Small Grey RAL 7000, Telegrey 4 RAL 7047 and Pur White RAL 9010

For all information requests, you can contact us directly

HSS Ø8 drill bit **RÉF. 193108**

TITANIUM drill bit Ø8 **RÉF. 193109**

for hardened sheets (hardness 43HRC) THLE

CARBIDE Ø8 drill bit - 80mm **RÉF. 193108C**

STEP DRILLS WITH SURAL FLUTE

Stage drillbit N°1 - Ø4 - 20mm

RÉF. 6120

Stage drillbit N°2 - Ø4 - 30mm

RÉF. 6130

GRINDING MACHINE

BELT SANDER 230V / 50Hz

sanding belt : Ø 50x686mm

sanding wheel : Ø 150x12,7x20mm

power : 240 W S2 30min, idle speed : 2950 rpm

belt speed : 900m/min

RÉF. MEUL-BAND

SET FOR THE REMOVAL OF WELDING SPOTS

1x support for the countersink - **RÉF. 193102**

5x spare countersink - **RÉF. 193104**

1x drill for the removal of welding spot Ø8 - **RÉF. 193108**

RÉF. 193100

BOX OF 170 HSS DRILL BITS

10x Ø 1-8mm - 5x Ø8.5-10mm

RÉF. 5817

BOX OF 19 DRILL BITS

Ø 1-10mm x 0.5

RÉF. 5819

COMPRESSOR 220V

100L

56kg - 253L/min

108x40x80cm

RÉF. COMP-100

HELICOIDAL BOX

15 nets 6x100x9, 15 nets 8x125x12,

15 nets 10x150x15, 15 nets 12x175x18,

1 tap, 1 installation tool,

1 pin and 1 breaker

RÉF. 750001

TYRE INFLATOR

FROM 7 TO 12 BARS

certified, 1/4 female connection,

length : 1.50m, pipe Ø 7x13

RÉF. GONF-15

CONNECTION NIPPLE

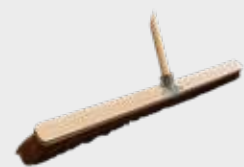

to connect the compressor
to the reel system ENR-15P

RÉF. MAM-CA

DUSTPAN AND BRUSH

RÉF. BAL-PEL

COCO BROOM 1M

CORDLESS SCREWDRIVER 20V
battery 1.5Ah Li-ion with charger

RÉF. 1800V

CORDLESS MILWAUKEE SCREWDRIVER 18V
57 Nm and 23 positions torques,
2 variable speeds, 13 mm auto chuck,
gearbox with all-metal transmission...
(delivered without battery or charger)

RÉF. 1880V

MOBILE REEL

4 x 16A sockets with latch,
3G1.5msqm, HO7RNF cable
IP44, 25 meters reel

RÉF. ENR-SOL25

PNEUMATIC HOSE REEL 15M

CE approved, slidable base,
flexible : 15m, maximum pressure : 20bars,
weight : 9.5kg, Ø connection : 3/8 - 9.5mm,

RÉF. ENR-15P

230V ELECTRIC HOSE REEL

CE approved, slidable base,
IP class 42/65, section : 3x2.5msqm,
HO7RNF cable, flexible 20m

RÉF. ENR-20E

AIR BLOWER

plastic base, pressure in bar : 6.2 to 8kgs,
air consumption : 6kgs, 1/4 air plunger, 85-88dB,
with short shaft 10cm and long shaft 50cm

Wear safety glasses

RÉF. 60-AP-NEW

AIR PLUNGER 1/4
for 60-AP-NEW
and POL-KIT-ROP

RÉF. RACCORD1-4MALE

CONNECTION COUPLER
to connect the air blower
to the reel system ENR-15P

RÉF. COUP-SE

A man wearing safety glasses and a black polo shirt with the VBSA logo is working on a car. The background is a workshop setting.
